

DuroPax

POWERED BY DuroKleen.

ALL-DAY FRESHNESS

POWERFUL, LONG-TERM* PROTECTION AGAINST ODOUR, BACTERIA AND VIRUSES KEEPING YOU AND YOUR RIDERS SAFE

***Up to 48 Hours of Protection**

What is DuroPax?

DuroPax is a combination cleaner-disinfectant unlike any conventional product. It contains DuroKleen, a modern, eco-friendly and longer-lasting* disinfectant that offers superior performance in the control of harmful pathogens, odour causing bacteria, mould and algae.

HOW TO USE DUROPAX

1. TIDY
Clear the area of any physical debris

2. SPRAY
Effectively spray the entire area to be cleaned

3. WIPE
Wipe product with cloth damp with DuroPax

4. DRY-TIME
Ensure light layer of liquid remains on surface to dry

5. JOB DONE
Enjoy clean and protected surface

What can DuroPax be used on?

DuroPax won't burn, bleach or stain, and is suitable for all kinds of hard and soft surfaces — plastics, metal, vinyl, leather, rubber, woven fabrics, carpets, wood — in fact, any firm, water-resistant surface you might want or need to protect.

STEERING WHEEL

WINDOWS

How does it work?

DuroPax works by first helping you to clean the surface, and then self-assembling as it dries into a safe yet powerful, invisible antimicrobial barrier that keeps on controlling unwanted microbes and mould for the full term* of a regular cleaning cycle. It is suitable for both cleaning and disinfecting any hard or soft, water-resistant surface, including woven fabric.

Safety Instructions

Please read the user and safety instructions on the product label. Do not allow DuroPax to make contact with your eyes. Wash your hands and skin after exposure, and do not apply DuroKleen to foodstuffs. If poisoning occurs, follow the instructions printed on the label. If necessary, consult a qualified medical practitioner.
